

Addendum: Peer Observations of Teaching in the 2023 NTTT Local MOA

This Addendum is to clarify observation guidelines for NTTTs in the 2023 [Memorandum of Agreement for Non-Tenure Track Teaching Positions](#) (NTTT). The 2023 MOA specifies the following requirements for peer observations of teaching:

For the first year of the NTTT, a peer observation of teaching is required. For the second year of the NTTT, a peer observation of teaching is required.

For the first year of the NTTT, a peer observation of teaching is required. For the second year of the NTTT, a peer observation of teaching is required.

For AY 2023-2024 only, all NTTTs should follow the observation guidelines for NTTTs in their first year, obtaining a peer observation in their first semester to include in their file.

In subsequent years of this agreement:

Any NTTT beyond their first year, who is still on one-year probationary contracts, should follow the MOA requirement of two peer observations in each subsequent file.
