

RAINY DAY FUNDS AS SAVINGS

All of us know that bad things happen. It could be unforeseen medical expenses, the car breaks down, family need extra \$\$\$ this is why we establish a rainy day fund. Any day fund should be about 6 months of living expenses. Put this money aside in an interest account and have that extra security that we all want for our families. An easy way to do this is to factor in all those extra little pays and bonuses we earn by throwing that money
