Additional Comments

- “Taking these surveys online makes this process feel [quicker] and doesn’t waste too much time because I have the ability to take it when I want.”
- “The survey doesn’t flip to landscape on my iPad. I had to have my iPad vertical. Not a

Faculty Feedback

Was the IDEA *online* delivery method convenient/inconvenient, and in what ways?

- Inconvenient because I don't know if students completed it
- Convenient because I don't have to use class time for evaluations

Please share any additional feedback you received from students about *online* delivery of IDEA.

- Would like real time tracking.
- Evaluation time period was too short.

Student Feedback

Did you encounter any difficulty while attempting to complete this survey?

Faculty Feedback Format

- Prefer to have students complete IDEA [on devices] in a [face to face]class
- Students [seemed to prefer] doing the IDEAs online in a [face to face] class setting
- Liked going to a lab, as a class, to take the IDEAs
- Students spent less time taking the survey on devices [than paper]
- Higher Response Rate [for in class delivery on device]
- No [apparent] significant difference in IDEA scores [between delivery methods]
- Dedicating a lab or two to IDEAs during the evaluation time period would be a good idea

Thank you!
