The poll of New Jersey registered voters was conducted by the Stockton Polling Institute of the William J. Hughes Center for Public Policy from Oct. 10-14, 2024. Stockton University students texted cell phones with invitations to take the survey online and Opinion Services supplemented the dialing portion of the fieldwork, which consisted of cell and landline telephone calls. Overall, 91% of interviews were conducted on cell phones and 9% on landline phones. In terms of mode, 65% were reached via dialing and 35% were reached via text-to-web. A random sample of 616 New Jersey registered voters were interviewed. Both cell and landline samples consisted of random digit dialing (RDD) and voter list sample from MSG. Data are weighted based on U.S. Census Bureau ACS 2023 data for the citizen voting age population in New Jersey on variables of age, race, education level, #

The William J. Hughes Center for Public Policy at Stockton University serves as a catalyst for research, analysis and innovative policy solutions on the economic, social and cultural issues facing New Jersey, and promotes the civic life of New Jersey through engagement, education and research. The center is named for the late William J. Hughes, whose distinguished career includes service in the U.S. House of Representatives, Ambassador to Panama and as a Distinguished Visiting Professor at Stockton. The Hughes Center can be found on YouTube @ StocktonHughesCenter, and can be followed on Facebook @ StocktonHughesCenter and X @ hughescenter.
